- Ratios

HOW WE TRAIN?

Compilation of Market Observation with Classroom knowledge

Business ideas are explained by the Faculties, with practical applications in diverse sectors using case studies, which helps students in thoroughly understanding the classroom theories and also by making them able to apply these theories in the corporate world.

Advanced Learning

Business Ideas are developed through the Advanced Hybrid & Live Learning Process which includes learning from expert faculties with industry experience, business leaders, and implementation of theories on the practical live cases.

Job Description (JD) Based Training

Specific training on the industry requirements to get the students directly acquainted with the Job profiles in Industry as well as the competencies required as per the Job Descriptions.

Confidence Building Program

Prioritizing the holistic development of the students through dedicated training on improving Communication, Aptitude, and Presentation Skills as required by the Corporate World.
